Viable Julie Hensley, 2015-12-01 This poetry collection is deftly seamed like an heirloom quilt. Hensley ties together her experiences of rural landscapes from her home in Appalachian to the Great Plains and the desert Southwest. Her poems trace the budding of an engaged female consciousness as it evolves from childhood to motherhood, passing through the misery of miscarriages.

Standards for Accreditation of Master's Programs in Library & Information Studies American Library Association. Committee on Accreditation, American Library Association. Office for Accreditation, 1992 These standards for the accreditation of graduate programs of library and information studies leading to a master's degree are a result of review and revision of the Standards for Accreditation 1972. Six areas are addressed: (1) Mission, Goals and Objectives; (2) Curriculum; (3) Faculty; (4) Students; (5) Administration and Financial Support; and (6) Physical Resources and Facilities. An afterword presents an abridged version of the commentary used during the revision process in order to enhance understanding of the scope and focus of the standards and to define key terms and phrases. The following are listed as important issues at the time of the revision (1989-1992): action orientation; definition of the field; discrimination; distance education; diversity; excellence; future focus; globalization; innovation; interaction with other fields of study and other campus units; management; multiple degree programs; ongoing evaluation processes; philosophy, principles, and ethics; research; specialization; technology; and users. The Oxford Handbook of Ritual and Worship in the Hebrew Bible Samuel E. Balentine, 2020-09-16 Ritual has a primal connection to the idea that a transcendent order - numinous and mysterious, supranatural and elusive, divine and wholly other - gives meaning and purpose to life. The construction of rites and rituals enables humans to conceive and apprehend this transcendent order, to symbolize it and interact with it, to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished. This Handbook provides a compendium of the information essential for constructing a comprehensive and integrated account of ritual and worship in the ancient world. Its

focus on ritual and worship from the perspective of biblical studies, as opposed to religious studies, highlights that the world of ritual and worship was a topic of central concern for the people of the Ancient Near East, including the world of the Bible. Given the scarcity of the material in the Bible itself, the authors in this collection use materials from the ancient Near East to provide a larger context for the practices of the biblical world, giving due attention to historical, anthropological, and social scientific methods that inform the context of biblical worship. The specifics of ritual and worship life—the sacred spaces, times, and actors in worship—are examined in detail, with essays covering both the divine and human aspects of the sacred dimension. The Oxford Handbook of Ritual and Worship in the Hebrew Bible considers several underlying concepts of ritual practice and closes with a theological outlook on worship and ritual from a variety of perspectives, demonstrating a fruitful exchange between biblical studies, ritual theory, and social science research.

Rethinking School-University Partnerships Prentice T. Chandler, Lisa Barron, 2021-05-01 *Rethinking School-University Partnerships: A New Way Forward* provides educational leaders in K-12 schools and colleges of education with insight, advice, and direction into the task of creating partnerships. In current times, colleges of education and local school districts need each other like never before. School districts struggle with pipeline, recruitment, and retention issues. Colleges of education face declining enrollment and a shifting educational landscape that fundamentally changes the way that teachers are trained and what local school districts expect their teachers to be able to do. It is with these overlapping

constraints and converging interests that partnerships emerge as a foundational strategy for strengthening the education of our teachers. With nearly 80 contributors from 16 states (and Jamaica) representing 39 educational institutions, the partnerships described in this book are different from the ways in which colleges of education and school districts have traditionally worked with one another. In the past, these loose relationships centered primarily on student teaching and/or field experience placements. In this arrangement, the relationship was directed towards ensuring that the local schools were amenable to hosting students from the college of education so that the student/candidate could complete the requirements to earn a teaching license. In our view, this paradigm needs to be enlarged and shifted.

The Perils of Posting Paul Douglas Foote,James R. Harrington,John McCaskill,2019-11-21 In recent years, there has been an increase of public employees being fired for inappropriate behavior on social media. This research explores social media conduct of public employees that have been adjudicated through the federal and state court systems. The arguments of these cases are based upon the question of an employee's first amendment rights versus the rights of the employer to maintain a desired work environment. The research found that widespread negative publicity, disruption of close working relationships, inappropriate and offensive employees comments led to favorable outcomes for the public employers. In contrast, when an employee posts on social media while off-duty as a private citizen, the employer has not cited any disruption and the comments are not personal attacks against employers but have substantial public concerns led to positive outcomes for the public employee.
