Astrological and Lunar Calendar 2020 Maria Patricia Ramirez Mejia,2020 It is a great joy for me to share this astrological and lunar calendar with you for the ninth year in a row. The information is designed so that you can know in advance the environment in which you are going to move and, thus, take the necessary precautions or take advantage of the opportunities. Although each of us has its own favorable or unfavorable planetary aspects. Depending on our individual horoscope. The formation of the general astrological elements described in this calendar affects the environment. How many times has it happened that you go out and feel the charged atmosphere, it seems that people are upset or everyone is in a hurry or on the contrary. You find a more pleasant and friendly environment; Well, with this book, you will know in advance the situation that you will find when leaving home and you can use it in favor. Or just try to be an observer and not be hooked in the seas of the environment. In my country there is a saying that says: If you know where you are going to fall, go crawling that segment. Here you will find: A daily description of the phases of the Moon, the Zodiac Sign through which it transits, and its practical use. The color of luck for each day, a daily segment that for three and a half years developed in the program Levántate of Telemundo Miami and that today is maintained in my fan page of Facebook: María Patricia, the public figure. This color can be worn on your clothes or solely in an accessory and connects you with the energy of the day so that affairs flow in harmony. A positive affirmation for each day. Dates of eclipses, solstices, equinoxes, planetary positions, changes of sign of the planets, periods in which Mercury is retrograde. Start of the year in different cultures and other important festivities Each aspect has its description and uses explained in a simple language, which equally serves those who know or do not know astrology. First, I write it in astrological terms and then explain in simple language what you can expect from each aspect. If you do not know the astrological words, pass the names long, and simply read the descriptions. It is my wish that this calendar is of use to you since it will allow you to tune in with the forces that govern our solar system. In the description of the astrological aspects, I have in mind aspects that in my opinion, are very relevant and affect the environment in general, they are: (Do not panic with these names. If you do not know astrology, this calendar is designed to be used by any person, without it being necessary to have previous knowledge of astrology). I have divided the planetary aspects into 2. Favorable groups, all those planetary aspects that facilitate our daily life and impel us. And Adverse Groups, those planetary aspects that are like stones that our everyday life presents, but that with knowledge and conscience, we can travel appropriately. The Stellium - meeting of more than 4 planets in the same zodiac sign. This is no information to paralyze, but to flow in a proactive attitude. In my opinion, astrological information is not a straitjacket, it is merely a map that allows us to move through the different routes to get to the place we want. Let me tell you that in consultation while delivering a client, doctor of the profession. He told me: - What sense, have to be aware of dates to do everything? -, and I answered: - What is the difference in a patient knowing that he has high cholesterol or not - and he answered me with high confidence: - Well, he then can take care of himself - to which I replied: - that is exactly what makes the difference between

knowing the astrological information or not knowing it -. So, this information is designed for that. So you can know in advance the environment in which you are going to move and. Thus, take the necessary precautions or take advantage of the opportunities.

Lunar Calendar 2021 Maya Art,2020-09-27 You won't find another calendar like this on Amazon. The planner you hold in your hand is a unique one. As one of the few on the market (if not the only one!) it takes into account the operation of less obvious forces that affect our efficiency and life. Such a power is undoubtedly the energy of the Moon, with which we women are particularly connected. In this calendar, the beginning of the month is the New Moon. The week of the New Moon is preceded by a page with its symbol and date. This will let you know that a new lunar month is coming and it's time to reflect on your plans. You can start using the calendar as early as December 2020. Due to the fact that the new lunar month does not coincide with the beginning of the New Year, the first monthly period included in this calendar begins in December. The calendar is universal. It doesn't matter if you live in the USA or Great Britain. Only the main phases of the moon are marked in the calendar. Its moonrise and moonset times are not marked because the calendar can be used by women living in different countries. For this reason, these hours could differ depending on the user's place of residence. Everybody knows Full Moon is a unique, highly energetic time. It is especially emphasised every month. In the week it is performing, you will find a brief description and reflection to read for this special moment of the month. In every week you will find a Workout for this week field. It contains 7 fields to fill in and it is about physical exercises. You can enter your exercise plan for each day there. In the planner you will also find pages for planning your goals and controlling your personal development.
