**A Big Heart** Mike Papale ,2021-09-01 As a teen, Mike Papale had one dream: to play college basketball. He was laser-focused—training like an Olympic hopeful to make his dream reality. Out of nowhere, his world changed. August 24, 2006, while coaching a summer camp basketball game, he slumped over, unresponsive, turning blue within minutes. He was 17, and had gone into cardiac arrest. With no AED on site, he was given a one in a million chance to survive. He was soon diagnosed with Hypertrophic Cardiomyopathy, or HCM, which, left undiagnosed and untreated, can lead to sudden cardiac arrest. At the time, he was crushed—processing the life-altering news he would never be able to play competitive basketball again. He quickly realized he was fortunate to be alive, and redefined his life’s purpose. A Big Heart brings the reader on Mike’s story of reinvention, hope, and survival. It is guaranteed to inspire readers to battle adversity and attack their dreams!

**World Heritage and Sustainable Development** Peter Bille Larsen,William Logan,2018-07-03 In 2015, the General Assembly of State Parties to the World Heritage Convention passed a ground-breaking Sustainable Development policy that seeks to bring the World Heritage system into line with the UN's sustainable development agenda (UNESCO 2015). World Heritage and Sustainable Development provides a broad overview of the process that brought about the new policy and the implications of its enactment. The book is divided into four parts. Part I puts the policy in its historical and theoretical context, and Part II offers an analysis of the four policy dimensions on which the policy is based - environmental sustainability, inclusive social development, inclusive economic development and the fostering of peace and security. Part III presents perspectives from IUCN, ICOMOS and ICCROM - the three Advisory Bodies to the World Heritage Committee, and Part IV offers 'case study' perspectives on the practical implications of the policy. Contributions come from a wide range of experienced heritage professionals and practitioners who offer both 'inside' perspectives on the evolution of the policy and 'outside' perspectives on its implications. Combined, they present and analyse the main ideas, debates and implications of the policy change. This book is key reading for all heritage professionals interested in developing a better understanding of the

new Sustainable Development policy. It is also essential reading for scholars and students working in the area.

*Eric Whitacre: The Seal Lullaby* Eric Whitacre,2008-08-19 The Seal Lullaby by Eric Whitacre is a delightful, deceptively simple setting in the form of a lullaby for mixed choir and accompaniment of Rudyard Kipling's poem 'The White Seal'. This full SATB (Soprano, Alto, Tenor, Bass) choral arrangement with Piano accompaniment is accurately transcribed and appears in great quality print, with easy part writing throughout, so that singing this emotive song is as easy as possible. When Eric Whitacre was commissioned to write music for an animated feature, he was so struck by the words of Kipling's lovely poem that he immediately sat down to write a calm and subtle yet musically interesting piece. Unfortunately, the song was not used, but was later commissioned by the Towne Singers, and we are pleased to offer you this Seal Lullaby sheet music.

The Cancer Revolution Leigh Erin Connealy,2017-01-24 When it comes to cancer, conventional doctors are trained to treat their patients exclusively with surgery, radiation, and chemotherapy. These methods are grueling on the whole body - and they don't treat beyond the tumor or the cancer itself. The focus is on the disease, not the whole person - and because of this, the outcomes in conventional medicine can be bleak. But it doesn't have to be this way. Dr. Leigh Erin Connealy has developed a whole-person approach to treating cancer - and these treatments have helped thousands of patients through her Cancer Center for Healing. In *The Cancer Revolution*, Dr. Connealy shows you how to get to the root causes of cancer and the practical steps you can take to get back on the path to healing -- from balancing your body's chemistry with nutritional supplements, following a healthy food plan, detoxifying your body and home, exercising regularly, getting deep restful sleep every night, practicing stress reduction techniques, and putting together a supportive healing team. Chemotherapy and radiation have their place in treatment, but in many cases, they are simply not enough, because cancer isn't caused by one thing, but by many different factors. All of these causes must be addressed, not just the tumor. *The Cancer Revolution* will equip you to make impactful, achievable lifestyle choices that fight the root of the disease, and that offer hope for recovery and a cancer-free life.
