Decolonizing and Indigenizing Education in Canada Dr. Sheila Cote-Meek, Dr. Taima Moeke-Pickering, 2020-06-01
Decolonizing and Indigenizing Education in Canada thinks boldly about how to make space for Indigenous knowledges and have an honest discourse on truth and reconciliation. By engaging with Indigenous epistemologies and strategies, the contributors navigate the complexities of the decolonization and indigenization of post-secondary institutions. What is needed in this field is less theorizing and more action: the contributors offer practical steps on how one might positively transform the Canadian academy. Through this lens of action-based solutions, each of the fifteen chapters advances critical scholarship on issues of pedagogy, curriculum, shifting power dynamics, and challenging Eurocentric perspectives in higher education. With contributions from both Indigenous and non-Indigenous academics from across Canada and in varying academic positions, Decolonizing and Indigenizing Education in Canada provides a unique perspective specific to the Canadian education system. Featuring discussion questions, further reading lists, and practical examples of how to engage in decolonization work within the academy, this text is an essential resource for students and scholars studying Indigenous knowledges, education and pedagogies, and curriculum studies.
