Co-Constructing and Sustaining Service Learning in Graduate Programs: Reflections from the Field Hos, Rabia, Santos, Brenda, 2023-08-18 Ensuring doctoral students receive a well-rounded and thorough education is critical for their future success. Service learning within the doctoral program is one of the many aspects that helps shape students' experiences and prepares them for life after graduation. Co-Constructing and Sustaining Service Learning in Graduate Programs: Reflections from the Field captures the experiences of doctoral students who were involved in socially just and sustainable service-learning projects and what it meant for them to be engaged in scholarship through service-learning. The book also illustrates what service-learning looks like and should look like in higher education particularly given the inequities that exist in the field of education. Covering key topics such as online education, academic identity, and sustainable learning, this reference work is ideal for administrators, policymakers, researchers, scholars, practitioners, instructors, and students.

Studies Of China And Chineseness Since The Cultural Revolution - Volume 2: Micro Intellectual History Through Decentral Lenses Chih-yu Shih, Mariko Tanigaki, Tina Clemente, 2023-01-04 Studies of China and Chineseness since the Cultural Revolution Volume 1: Reinterpreting Ideologies and Ideological Reinterpretations How did the Great Proletarian Cultural Revolution affect everyone's lives? Why did people re/negotiate their identities to adopt revolutionary roles and duties? How did people, who lived with different self-understandings and social relations, inevitably acquire and practice revolutionary identities, each in their own light? This book plunges into the contexts of these concerns to seek different relations that reveal the Revolution's different meanings. Furthermore, this book shows that scholars of the Cultural Revolution encountered emotional and intellectual challenges as they cared about the real people who owned an identity resource that could trigger an imagined thread of solidarity in their minds. The authors believe that the Revolution's magnitude and pervasive scope always resulted in individualized engagements that have significant and differing consequences for those struggling in their micro-context. It has impacted a future with unpredictable collective implications in terms of ethnicity, gender, memory, scholarship, or career. The Cultural Revolution is, therefore, an evolving relation beneath the rise of China that will neither fade away nor sanction integrative paths.
